

ml::Expression

```
graph BT; Add[ml::Add] --> Expression[ml::Expression]; Constant[ml::Constant] --> Expression; Variable[ml::Variable] --> Expression;
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'ml::Expression'. Below it, three boxes are arranged horizontally: 'ml::Add' on the left, 'ml::Constant' in the center, and 'ml::Variable' on the right. A horizontal line connects the top of these three boxes, and a vertical line with an upward-pointing arrow connects the center of this horizontal line to the bottom of the 'ml::Expression' box, indicating inheritance.
